PROFESSIONAL SUMMARY

IT graduate with hands-on Level 1 IT support experience in hardware and software troubleshooting, PC maintenance, printer support, connectivity troubleshooting, and IT equipment deployment. Experienced in assisting users, maintaining equipment inventory, performing preventive checks, and supporting day-to-day IT operations. Adaptable, patient, and quick to learn, with strong problem-solving and communication skills developed through real-world IT support and academic projects.

EXPERIENCE

Technical Support Intern **Jan 2026 - May 2026**
Far Eastern University - Cavite

- Provided Level 1 IT support by troubleshooting hardware, software, printer, and network connectivity issues for staff and students.
- Installed and updated software, drivers, Windows systems, and Sophos security tools across office and laboratory computers.
- Set up and deployed computers, printers, projectors, and other IT equipment for classrooms, events, and enrollment operations.
- Maintained IT equipment inventory, performed daily room inspections, and identified defective or missing equipment .
- Assisted users with technical concerns and provided on-site support across different offices, classrooms, and facilities.

PROJECTS

Web-Based Record Management System for the Guidance Office
Capstone Project | STI College Dasmariñas | 2025

- Developed the front-end interfaces for students and teachers and contributed to the admin-side interface using React as part of the project's FERN stack.
- Implemented user-facing modules including Student 201 Files, Request Slips, Student Wellness, Teacher Referral Forms, and submission history to support digital guidance processes.
